

The Patent Regulation Board and the Trade Mark Regulation Board (The Intellectual Property Regulation Board) Business Plan for 2018

Policy Focus and Objectives

The regulatory objectives which underpin all IPReg's activities are:

- *protecting and promoting the public interest;*
- *supporting the constitutional principle of the rule of law;*
- *improving access to justice;*
- *protecting and promoting the interests of consumers;*
- *promoting competition in the provision of legal services;*
- *encouraging an independent, strong, diverse and effective legal profession;*
- *increasing public understanding of the citizen's legal rights and duties;*
- *promoting and maintaining adherence to the professional principles.*

A period of transition

The Board is undergoing a significant period of transition. It is being led by one of the lay Directors pending the appointment of a new Chair. A new Chief Executive started on 1 August 2017 and a new post (Head of Registration) will start in October. In March 2018, two professional members will retire on completion of their two three-year terms.

To ensure a smooth transition, the Board has disbanded its two committees and is meeting monthly to facilitate the sharing of corporate knowledge and resources.

The Board has made a strategic decision to limit new initiatives in 2018, enabling the new Chief Executive and Head of Registration, working with the Board, to inform the future strategic direction of IPReg.

Specific Work Programme for 2018

Below we set out specific new activities in our 2018 work programme and (to provide continuity) of the activities commenced in 2017 but which might be ongoing in 2018.

Note: annual activities such as the appointment and appraisal of board members and formal admissions to and publication of the statutory registers are not shown although the plan does highlight areas where the annual activities are intended to be undertaken in a different way in 2018.

Regulatory and Policy		
New Initiatives for 2018		
	Activity	Description
1	Assurance Programme	<p>Review and update the Assurance Policy to ensure that the risk analysis framework identifies those activities, individuals and/or businesses that are likely to pose the most risk to consumers. This will involve identifying relevant sources of data about the IP market (such as that held by the IPO, the Register and published reports); it will also identify gaps in our data and we will consider what additional data it would be proportionate to collect. Results of the review will be used to develop future thematic reviews.</p> <p>Review (and update as necessary) IPReg’s internal policies and procedures to ensure consistency with best regulatory practice and support the Assurance Policy.</p>
2	Operation and Maintenance of the Registers	<p>Assess what work is needed to improve the effectiveness of the operation and maintenance of the Registers and implement changes (including consulting on Rule changes) as appropriate.¹</p> <p>Implement changes needed to ensure that the Registers are compliant with the General Data Protection Regulation and other statutory requirements.</p>
3	Consumer Engagement	<p>CMA Legal Services Market Study Report - Implement IPReg Action Plan through:</p> <ul style="list-style-type: none"> • consultation on and implementation of any new guidance and (if necessary) rule changes; • providing IPReg’s share of funding for and (through the various governance structures) take an active role in the development of the Legal Choices website and assessing the feasibility of a joint digital register; • continuing to ensure proportionate and risk-based revisions to regulation in the IP legal services sector;

¹ We expect CIPA and CITMA to be actively involved in this work.

		<ul style="list-style-type: none">• keeping up to date with other regulators' actions on the promotion of independent feedback platforms and making data available to comparison websites and other intermediaries as appropriate.
4	Brexit	Monitor potential implications of Brexit on the profession taking into account the work being done by CITMA and CIPA.

Regulatory and Policy
